

imagination at work

The program is designed for young adults, ages 14 – 20 years old to witness first-hand what it is like to work in the world of Engineering. You'll learn about a wide variety of career options in fields such as Jet Engine Assembly, Six Sigma Quality, Computer Engineering, Process Planning, Quality Technology and much more! The program will be held one evening per week for 12 weeks. Total cost to students is \$12.

You must RSVP to Jim DeLong at 513-552-6452 or explorers.303@ge.com. Leave a message with your name and phone number and reference the Exploring Program.
